

You are required to have at least six months validity on your passport after your scheduled return to the US. The United States Department of State strongly recommends that you renew your passport when you have nine months of validity remaining.

In addition to a passport, many countries require a visa for entry. To obtain the most current entry requirements for your upcoming trip AND to apply for your visa, please contact CIBT Visas at <http://www.cibtvisas.com/103317> or call CIBT at 844-890-1134.

Many countries require travelers to show proof of International Certificates of Vaccination for a number of diseases when entering or exiting their country. In some cases, the consulate will require the certificate to be included with the traveler's visa application. We recommend travelers check the requirements for their destination when planning their international trip.

You must mention **ACCOUNT 103317** for discounted CIBT service fees.
